Placements @ Technoglobe

The Placement Department of Technoglobe is a highly dedicated and professionally managed unit comprising senior and experienced Placement Officers who work continuously to create strong and consistent career opportunities for Technoglobe students. The team plays a vital role in building long-term industry relationships and ensuring that every eligible student gets maximum exposure to interviews and recruitment drives.Our Placement Officers regularly develop new tie-ups and recruitment associations with companies across a wide range of sectors, including Information Technology, Web Development, Mobile App Development, CRM Technologies, Database Management, Networking & Infrastructure, Banking & Financial Services, Accounting & Taxation, Digital Marketing, and many other emerging domains. This diversified approach ensures that Technoglobe students receive placement opportunities across multiple industries and job roles based on their training specialization and career interests.

With a strong foundation and a proven track record spanning 25+ years, Technoglobe has successfully trained and placed more than 3,00,000+ students in India and abroad. This achievement reflects the strength of our training methodology, practical learning environment, career grooming process, and most importantly, our consistent placement support system. Our students have been placed in various sectors and locations across the country as well as in international markets, showcasing Technoglobe's capability to deliver job-ready candidates at scale.

Currently, Technoglobe has active tie-ups with 500+ companies across India and overseas, which regularly hire skilled candidates from our centers.The Placement Department follows a systematic and structured process that includes candidate profiling, resume development, interview preparation sessions, communication enhancement, aptitude support, interview scheduling, and continuous follow-ups with recruiters. We conduct regular placement activities such as campus recruitment drives, pooled interviews, virtual hiring processes, and company-specific hiring programs, ensuring continuous opportunities for our students throughout the year.

Technoglobe's excellent placement performance and contribution to employability has been recognized through several prestigious honours. The organization has received recognition at Oxford University, UK, along with many other reputed awards for excellence in professional training and placement support. Our alumni network, placed in reputed companies in India and abroad, stands as strong proof of our credibility and commitment to career building. Overall, Technoglobe's Placement Department functions as a complete career-support ecosystem that connects skilled students with the right industry opportunities.

As per our Placement Policy, every student who successfully completes any Job Oriented Training Program from any Technoglobe Center is offered minimum 3 Interviews.
